MARKO SAMEH

Frontend Engineer | React | Next.js | TypeScript | SaaS

Mokkatam, Cairo, Egypt | +201203113955 | markosameh75@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Engineer specializing in React, Next.js, and TypeScript, with hands-on experience building and maintaining production business applications and SaaS platforms. Experienced across the full feature lifecycle—from requirements analysis and implementation through testing, code review, deployment, release validation, and production support. Strong background in modular frontend architecture, REST API integration, PostgreSQL, authentication/RBAC, multi-tenant systems, CI/CD, automated testing, performance optimization, and LLM-powered features.

TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Three.js, React Three Fiber
State & Data	TanStack Query, Redux, Zustand, Context API, REST APIs, Axios
Backend & Database	Node.js, Express, PostgreSQL, Prisma, SQL, Firebase
Mobile	Flutter, Dart, React Native
Testing	Vitest, React Testing Library, Playwright
DevOps & Deployment	Docker, GitHub Actions, CI/CD, Vercel, Git, GitHub
Architecture & Security	Authentication, RBAC, Multi-tenancy, Modular Architecture, Web Performance, API Security, Responsive Design, SEO
AI & Other	LLM APIs, Structured Outputs, AI Integration, Figma

PROFESSIONAL EXPERIENCE

Frontend Developer — Kulsys Technologies | Cairo, Egypt | March 2026 – Present

- Develop and maintain production business applications using React, Next.js, and TypeScript within a modular monolithic architecture.
- Own feature delivery end-to-end, including requirements analysis, implementation, testing, code review, deployment, release validation, and production support.
- Build and maintain enterprise platforms, dashboards, and POS systems while collaborating with designers, backend engineers, and stakeholders.
- Review code contributions, enforce development standards, troubleshoot production issues, and support reliable releases.
- Drive frontend quality, performance optimization, scalability, and long-term maintainability across production applications.

Full-Stack Developer — Freelancer | Remote | October 2023 – Present

- Delivered 11 web applications using React and Next.js, consistently achieving 90+ Google Lighthouse performance scores.
- Worked directly with 10 clients to translate business requirements into production-ready web applications, maintaining 100% client satisfaction and retention.
- Improved page load times by approximately 30% through optimized rendering strategies, SSR, and efficient state management.
- Built bilingual, accessible, responsive interfaces and collaborated with clients throughout delivery and iteration.

AI Trainer — Outlier | Remote | February 2024 – Present

- Evaluate AI-generated code and responses for reasoning quality, technical accuracy, and alignment with task requirements.
- Apply structured evaluation criteria to improve data quality and model outputs, gaining practical experience with prompt engineering and LLM evaluation.

SELECTED PROJECTS

KPI Analyzer — Multi-Tenant SaaS | *Production SaaS | Next.js, TypeScript, Node.js, PostgreSQL, Prisma* **Live / Link**

- Built a production KPI management platform for organizations, departments, teams, and users, using a scalable multi-tenant architecture.
- Implemented authentication and role-based access control (RBAC), KPI templates, scoring workflows, auditing, and management dashboards.
- Integrated LLM-powered decision support with structured AI outputs to analyze KPI performance and generate actionable business insights.
- Implemented REST API integrations, automated testing with Vitest, React Testing Library, and Playwright, plus Docker-based workflows and GitHub Actions CI/CD.
- Designed performance-focused frontend architecture and production-ready data models, deployments, and feature workflows.

SpaceTechs Platform & Analytics Dashboard | *Interactive 3D portfolio + analytics* ***Live / Link***

- Developed an interactive 3D portfolio using React Three Fiber alongside an analytics dashboard built with Chart.js.
- Engineered lightweight 3D models and modular data visualization components for high-performance rendering and responsive mobile experiences.
- Implemented Node.js content APIs for dynamic data loading while maintaining SEO-friendly architecture and fast load times.

Neizk Landing Page | *Conversion-focused landing page | SEO + Analytics*

- Developed a responsive landing page focused on conversion, visual clarity, and minimal load times.
- Implemented advanced SEO strategies and integrated Pixel tracking to improve search visibility and monitor marketing analytics.

Coffee Brain — Integrated Café System & Website | *Graduation Project | Full-stack business platform* ***Link***

- Architected a dual-platform solution combining a full-stack inventory management system with a responsive marketing website.
- Integrated an AI-powered Barista chatbot for personalized recommendations and automated reporting, reducing manual administrative errors by 30%.
- Engineered the marketing frontend with smooth UI animations and advanced SEO techniques including structured data and metadata optimization.

Personal Portfolio Website | *Next.js App Router | markosameh.com* **Live / Link**

- Built a high-performance, SEO-optimized portfolio using Next.js App Router and a modern frontend architecture.
- Achieved 90+ Lighthouse scores across Performance, Accessibility, SEO, and Best Practices; improved page load speed by approximately 30% through SSR, code splitting, and image optimization.
- Designed a 100% responsive, mobile-first UI with a custom design system and smooth animations, with separate content paths for recruiters and clients.

EDUCATION

Future University in Egypt (FUE) & University of Cincinnati — Dual Degree Program, Computers Science & Information Technology | Bachelor's Degree | September 2021 – July 2025

LANGUAGES

Arabic — Fluent | English — Intermediate

CERTIFICATIONS

- Developing Back-End Apps with Node.js and Express — IBM, December 2025
- Foundations of Digital Marketing and E-Commerce — Google, November 2025
- HTML and CSS in Depth — Meta, November 2025
