MARKO SAMEH

FULL-STACK DEVELOPER | REACT | NEXT.JS | NODE.JS | POSTGRESQL

Cairo, Egypt | +201203113955 | markosameh75@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer with a strong frontend foundation in React, Next.js, and TypeScript, plus hands-on project experience building SaaS and business platforms across APIs, data models, authentication, and deployment workflows. Technical toolkit includes Node.js, Express, PostgreSQL, Prisma, REST APIs, RBAC, and multi-tenant architecture. Experienced in delivering production features from requirements and implementation through testing, release validation, and support, with a focus on performance, maintainability, and AI-powered product capabilities.

TECHNICAL SKILLS

Frontend React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Three.js, React Three Fiber
Backend & APIs Node.js, Express, REST APIs, Axios, API integration, Firebase
Databases PostgreSQL, Prisma, SQL, data modeling, multi-tenant systems
State & Data TanStack Query, Redux, Zustand, Context API
Testing & Quality Vitest, React Testing Library, Playwright, code review, performance optimization
DevOps & Security Docker, GitHub Actions, CI/CD, Vercel, Git, GitHub, authentication, RBAC, API security
Additional Flutter, Dart, React Native, LLM APIs, structured outputs, AI integration, responsive design, SEO, Figma

PROFESSIONAL EXPERIENCE

Frontend Developer | Kulsys Technologies | Cairo, Egypt | Mar 2026 - Present

- Develop and maintain production business applications with React, Next.js, and TypeScript in a modular monolithic architecture.
- Own feature delivery from requirements analysis and implementation through testing, code review, deployment, release validation, and production support.
- Build enterprise platforms, dashboards, and POS systems in collaboration with designers, backend engineers, and stakeholders.
- Review code, troubleshoot production issues, and improve frontend quality, performance, scalability, and maintainability.

Full-Stack Developer | Freelance | Remote | Oct 2023 - Present

- Delivered 11 web applications with React and Next.js, achieving 90+ Google Lighthouse performance scores.
- Worked directly with 10 clients to turn business requirements into production-ready applications, maintaining 100% client satisfaction and retention.
- Improved page-load times by approximately 30% through rendering optimization, SSR, and efficient state management.
- Built bilingual, accessible, responsive interfaces and collaborated with clients through delivery and iteration.

AI Trainer | Outlier | Remote | Feb 2024 - Present

- Evaluate AI-generated code and responses for reasoning quality, technical accuracy, and alignment with task requirements.
- Use structured evaluation criteria to improve data quality and model outputs, with practical exposure to prompt engineering and LLM evaluation.

SELECTED PROJECTS

KPI Analyzer | *Multi-Tenant SaaS Platform* **Live Demo**
Tech: Next.js, TypeScript, Node.js, PostgreSQL, Prisma, Docker, GitHub Actions

- Built a production KPI management platform for organizations, departments, teams, and users using a scalable multi-tenant architecture.
- Implemented authentication and role-based access control (RBAC), KPI templates, scoring workflows, auditing, and management dashboards.
- Integrated LLM-powered decision support with structured AI outputs to analyze KPI performance and generate actionable business insights.
- Added REST API integrations and automated tests with Vitest, React Testing Library, and Playwright; established Docker-based workflows and GitHub Actions CI/CD.

To see username: admin@strategy-egypt-2026.com , pass: Admin@2026!Secure

Coffee Brain | *Full-Stack Café Management System* **Project Video**
Tech: Full-stack web platform, inventory management, AI chatbot

- Architected a dual-platform solution combining a full-stack inventory management system with a responsive marketing website.
- Integrated an AI-powered Barista chatbot for personalized recommendations and automated reporting, reducing manual administrative errors by 30%.
- Built the marketing frontend with smooth UI animations and technical SEO, including structured data and metadata optimization.

SpaceTechs Platform & Analytics Dashboard | *Interactive 3D Portfolio + Analytics* **Live Website**
Tech: React Three Fiber, React, Chart.js, Node.js

- Developed an interactive 3D portfolio and an analytics dashboard with modular data visualization components.
- Implemented Node.js content APIs for dynamic data loading and optimized lightweight 3D models for responsive, high-performance rendering.

Personal Portfolio Website | *Portfolio & Recruiter/Client Landing* **Live Website**

Tech: Next.js App Router, SEO, responsive UI

- Built a mobile-first, SEO-optimized portfolio with separate content paths for recruiters and clients.
- Achieved 90+ Lighthouse scores across Performance, Accessibility, SEO, and Best Practices; improved load speed by about 30% with SSR, code splitting, and image optimization.

Neizk Landing Page | *Conversion-Focused Landing Page*

Tech: Responsive UI, SEO, Pixel tracking

- Developed a responsive landing page focused on conversion, visual clarity, and fast loading.
- Applied SEO improvements and Pixel tracking to support search visibility and marketing analytics.

EDUCATION

Future University in Egypt (FUE) & University of Cincinnati | Dual Degree Program, Computer Science & Information Technology

Bachelor's Degree | Sep 2021 - Jul 2025

CERTIFICATIONS & LANGUAGES

- Developing Back-End Apps with Node.js and Express - IBM, Dec 2025
- Foundations of Digital Marketing and E-Commerce - Google, Nov 2025
- HTML and CSS in Depth - Meta, Nov 2025

Languages: Arabic - Fluent | English - Fluent
